Source Water Technician

The Iowa Rural Water Association seeks an individual to work with small communities and rural water systems to develop source water protection plans. The successful candidate will possess a strong background in watershed planning and source water protection. Must have strong communication skills and the ability to work with federal, state and local regulatory and government officials. The position works closely with water utility personnel, city councils, water boards, NRCS, IDALS and IDNR officials, and water industry-related businesses. Strong computer skills and proficiency in Arcview required. Moderate travel throughout Iowa required (expenses covered). Salary DOQ, generous benefits package. Application deadline: November 9, 2018. Send resume and letter of application to: Iowa Rural Water Association, 4221 S. 22nd Avenue E., Newton, IA 50208; or e-mail to irwinfo@iowaruralwater.org EOE
